December 2021

Hi, Hill Neighbor.

The Hill Safety and Security Committee is collecting the locations of doorbell and security cameras from homes and businesses in the neighborhood. We're working in collaboration with our District 2 police station. The camera locations will be given to police if the footage could be helpful in responding to an incident or crime. It's a huge help to have extra eyes on our properties, and we'd like to ask if you'd join us in the effort.

Many of your neighbors have already provided their name and location of their doorbell or security camera. We are trying to broaden this network.

First, and most important, this is completely voluntary and completely anonymous. Only the police would have access to this information – so they'd know whom to contact if there's an incident near you.

If you'd like to join us, just send the information below to safety@hill2000stl.org.

The Hill Safety and Security is part of Hill 2000. The committee's mission is to maintain a continued and open dialogue about safety concerns with Hill residents and businesses, and to act on those concerns.

Again, thank you for being a great neighbor...and for making our great neighborhood better!

Sincerely,

The Hill Safety and Security Committee

Address where the camera or cameras are located:

Where on the property are cameras located? (e.g., Front porch? Alley?) What view do they record? (e.g., your front sidewalk, the alley behind your house)

Contact name (if an officer needs to get in touch):

Best phone number to reach the above contact:
