

Protect Your Vehicle Against Catalytic Converter Theft

Every car has a catalytic converter.

Thieves are actively targeting catalytic converters because they contain precious metals, like platinum. They can sell them to scrap yards for up \$200 but **WILL COST YOU UP TO \$2,000 TO REPAIR IT!!!**

What Can I Do???

- Park in well-lit areas
- Park inside your garage
- Consider purchasing a catalytic converter anti-theft device (an example is pictured)

***** Thieves use a saw to remove it. Removal can take as little as ONE (1) MINUTE!!!**

DON'T HESITATE TO REPORT ANY SUSPICIOUS ACTIVITY TO OUR NON- EMERGENCY PHONE NUMBER **(314)231-1212**

You can report anonymous tips regarding these thefts to CrimeStoppers. Remember, crime doesn't pay, but CrimeStoppers does.
